

3rd International Week on Management of Networks and Services

Manweek 2007 (<http://www.manweek.org/2007/>)

October 29 - November 2, 2007, San Jose/ Silicon Valley, California, USA

Call for Participation

We cordially invite you to participate in Manweek 2007! Manweek 2007 will take place at the Marriott Hotel in downtown San José, California, right in middle of Silicon Valley. In its third incarnation, Manweek 2007 is host to five of the most reputable workshops and conferences in the area of management of networks and services:

- **DSOM 2007 - 18th IFIP/IEEE Internatl. Workshop on Distributed Systems: Operations and Management (Oct 29-31)**
- **MMNS 2007 - 10th IFIP/IEEE Internatl. Conference on Management of Multimedia and Mobile Networks and Services (Oct 31 – Nov 2)**
- **IPOM 2007 - 7th IEEE Internatl. Workshop on IP Operations and Management (Oct 31 – Nov 2)**
- **MACE 2007 - 2nd IEEE Internatl. Workshop on Modelling Autonomic Communications Environments (Oct 29-30)**
- **EVGM 2007 – 3rd IEEE/IFIP Internatl. Workshop on End-to-End Virtualization and Grid Management (formerly known as AGNM) (Oct 29-30)**

Manweek also features a number of joint keynote speeches, a welcome reception, a social event at the San Jose Tech Museum of Innovation, and a social event at the Santa Clara Mission Gardens.

Collocating those events allows for five days of intensive exchange of ideas between research communities and topics that are distinct but interrelated, allowing participants to forge links and exploit synergies with researchers of adjacent areas of interest. The general theme of Manweek 2007 is **End-to-end Virtualization of Networks and Services**, a topic that captures the imagination of industry and researchers alike. Each of the workshops, organized by their own technical program committees, supports this general theme. Please visit the conference Website, <http://www.manweek.org/2007/>, for details on the program.
