

3rd International Week on Management of Networks and Services
Manweek 2007 (<http://www.manweek.org/2007/>)
October 29 - November 2, 2007, Silicon Valley, California, USA

Call for Patrons

In its third incarnation, Manweek 2007 is host to five of the most reputable workshops in the area of management of networks and services:

- **DSOM 2007 - 18th IFIP/IEEE Internatl. Workshop on Distributed Systems: Operations and Management**
- **MMNS 2007 - 10th IFIP/IEEE Internatl. Conference on Management of Multimedia and Mobile Networks and Services**
- **IPOM 2007 - 7th IEEE Internatl. Workshop on IP Operations and Management**
- **MACE 2007 - 2nd IEEE Internatl. Workshop on Modelling Autonomic Communications Environments**
- **EVGM 2007 – 3rd IEEE/IFIP Internatl. Workshop on End-to-End Virtualization and Grid Management (formerly known as AGNM)**

Collocating those events allows for five days of intensive exchange of ideas between research communities and topics that are distinct but interrelated, allowing participants to forge links and exploit synergies with researchers of adjacent areas of interest. Manweek 2007 will take place in San José, California, right in middle of Silicon Valley. The general theme of Manweek2007 is **End-to-end Virtualization of Networks and Services**, a topic that captures the imagination of industry and researchers alike. Each of the workshops, organized by their own technical program committees, will support this general theme.

The Organising Committee of Manweek invites companies and organisations to participate as patrons of the event. Being a Manweek 2007 patron will allow your company to increase visibility and connect with international experts who are shaping the technical future of the field. A number of contribution levels are outlined below. If desired, we will be delighted to discuss other possibilities as well, such as sponsoring a social event or lunch.
